

MIND GAP

a bridge between digital migrants and digital natives

The project has been approved under Erasmus + in Key Action 2 - Strategic Partnerships and its main purpose is to bridge the gap between those who are familiar with modern technology and those who feel socially excluded due to their lack of familiarity. The project is coordinated by Asociación La Bien Pagá Espacio Escénico from Spain.

R1: Theoretical and Methodological Framework for Contemporary Digital Skills for Adults (LBP)

R2: Training Curriculum for digital migrants (GOI)

R3: E- learning platform including digital-ed modules for the contemporary digital skills for digital migrants (INFODEF)

R4: Webinars / Instructional Videos as maps directly for digital migrants in virtual world (AKETH)

3rd Transnational Project Meeting

The third transnational project meeting was held on 13/10/2022 in Dublin, Ireland. Some of the partners participated to the meeting via Skype.

In the meeting there were presentations of the progress in the project results (Pr1, Pr2, Pr3, Pr4). The next steps of the project were reaffirmed, and a review of the dissemination plan, activities, administrative and financial issues, was held based on the unfolded progression so far and the follow-ups that would be required.

Specifically, the following activities took place:

- Overview of the training curriculum for digital migrants
- Presentation of the instructional guide for the development of the training modules
- Presentation of the work plan to create the practical guideline for overcoming the challenges in adult learning
- Presentation of the work plan to develop the webinar/instructional videos for digital migrants in virtual world
